### Important Terms of the T.O.U. Program

The T.O.U. Program may give you the opportunity to lower your annual energy costs by reducing your electric use during peak periods. However, if you use electricity during peak hours or excessive electricity during off-peak hours while participating in the program, you will end up paying higher rates.

***To signify that you understand and agree to the important terms associated with T.O.U., please provide your initials and signature below:***

- I will accept a Free Energy Check-Up at my home or business as a mandatory part of the enrollment process.
- I understand the program is free to join during this initial signup period and I will have the right to cancel participation at any time during the first year. Each year there will be an Open Enrollment process.
- I may need to substantially change my routine and lifestyle to experience lower energy bills while on this program.
- I'm aware that "On-peak" hours differ from summer to winter.
- If I enroll in the T.O.U. Program and use electricity during peak hours, I will pay higher rates and my monthly bills may be higher.
