

FLORIDA PUBLIC UTILITIES ELECTRIC SERVICE APPLICATION

Please fill out form completely, sign, download; then forward to: ElectricalEngineering@fpuc.com.

Date _____ Phone Number (W) _____ (H) _____

Owner/Builder _____

Service Address _____

Subdivision Name _____ Lot# _____

Billing Address _____

City _____ State _____ Zip _____

Electrician _____ Phone No. _____

Service Requested New Repair Upgrade Overhead Underground
 Commercial Residential Single Meter Duplex Other _____

Service Size 100 AMP 200 AMP 400 AMP* Other* _____ (size)

Voltage Required 120/240 Volt 1 Phase 120/208 Volt 1 Phase
 120/240 Volt 3 Phase 120/208 Volt 3 Phase
 277/480 Volt 3 Phase Other _____ (voltage)

Temporary Power Required Yes No (check one)

***Services that require loads of 400 amps and above require a written load calculation to be attached.**

Additional Notes

- ▶ Engineering must be contacted by the electrical contractor for the type of meter base used for instrument metered services.
- ▶ FPU does not supply 277/480 volt self contained meter installations.
- ▶ Applications for Real Estate Developments, Subdivisions, Large Industry and Commercial Development require additional information and plans. The company will contact the applicant for this information as needed.
- ▶ All work performed under this application must be in accordance with the National Electric Code, as well as local County/City Building Department Codes and Florida Public Utilities Rules and Regulations
- ▶ It is understood that Florida Public Utilities will provide the electrical power for said service. I understand that my copy of this approved application serves as written notice, that the Florida Public Utilities Company, under its tariff as filed with the Florida Public Service Commission, will provide electric service to the above addressed service location.
