

Residential electric rebates

Florida Public Utilities offers residential electric rebates for homes to help offset the cost of making energy efficiency upgrades.

Residential Heating and Cooling Efficiency Upgrade Program

Jump-start your HVAC energy savings with **\$250-\$500** in rebates when you:

- › Replace your current system with a high-efficiency heat pump or air conditioning system
- › Install a new high-efficiency heat pump or air conditioning system

Residential Rebates

\$25
REBATE

WHEN YOU REPLACE
OR INSTALL
**A NEW ENERGY
STAR CERTIFIED
CLOTHES WASHER**

**UP TO
\$500**

ELECTRIC
**HEAT PUMP OR
AIR CONDITIONER**

APPLIANCE TYPE			Customer Rebate	Dealer Incentive
TYPE 1	HEAT PUMP REPLACING RESISTANCE HEAT	UP TO	\$500	\$25
TYPE 2	HEAT PUMP REPLACEMENT	UP TO	\$500	\$25
TYPE 3	AIR CONDITIONER REPLACEMENT	UP TO	\$500	\$25
TYPE 4	NEW HEAT PUMP OR AIR CONDITIONER	UP TO	\$500	\$25

In order to be eligible, the residential customer must: replace existing equipment with, or install, a new heat pump (AHRI rating only) or central air conditioning system with a minimum rating of 15.0 SEER for a \$250 rebate or a minimum rating of 17.7 SEER for a \$500 rebate; be the owner of the residence, which must be located in FPU's electric service area; have a ducted HVAC system; submit a signed rebate application to Florida Public Utilities Company (FPUC) within one year of the installation date. Dealer incentive will be paid to the contractor for the purchase and installation of a qualifying unit once the residential rebate is approved. **Additional Details:** For a new heat pump installed or a heat pump being replaced, the maximum supplemental strip heating physically contained in the system shall not exceed 2 kW per nominal ton. On a system of less than 2.5 tons, a 5 kW heat strip will be allowed; For a heat pump using supplemental strip heating, a two-stage indoor thermostat is required; If replacing a straight cooling system, the residence cannot have oil or electric resistance as the primary heat source; The customer and/or contractor must attest that the heat pump or air conditioner installation meets all required codes and standards. FPU accepts no liability for the installation. **Please note:** You must file for your appliance/equipment rebates within one year from your purchase date[s]. Rebate offer expires at end of 12-month period.

Commercial electric rebates

Florida Public Utilities offers commercial electric rebates for businesses to help offset the cost of making energy efficiency upgrades.

Commercial Heating and Cooling Efficiency Upgrade Program

Jump-start your HVAC energy savings with a \$100 rebate when you:

- › Replace your current system with a high-efficiency heat pump or air conditioning system
- › Install a new high-efficiency heat pump or air conditioning system

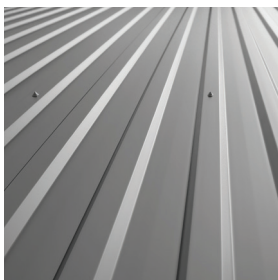

APPLIANCE TYPE		Customer Rebate	Dealer Incentive
TYPE 1	HEAT PUMP REPLACING RESISTANCE HEAT	\$100	\$25
TYPE 2	HEAT PUMP REPLACEMENT	\$100	\$25
TYPE 3	AIR CONDITIONER REPLACEMENT	\$100	\$25
TYPE 4	NEW HEAT PUMP OR AIR CONDITIONER	\$100	\$25

Commercial Chiller Upgrade Program

Upgrade existing water-cooled centrifugal chillers, water-cooled scroll or screw chillers and air-cooled electric chillers — and earn rebates on each kWh saved!

Commercial Exterior & Interior Lighting Program

Enjoy bright lights and earn per kWh rebates when you upgrade to LED lights and energy-efficient control systems.
